HOW TO MANUAL FOCUS THE HG-10

Turn on the camera

On top of the camera move switch from “Auto” to “P”

On the left side of the viewfinder click the “SET” button.

You will get a window on the right bottom part of the viewfinder. Click the “down arrow” around the “SET” button until you get the word “FOCUS” on the window.

Click the “up arrow” to switch to manual focus and you will get the letters “MF” in blue on the top middle part of the viewfinder.

Focus using the “right arrow” and the “left arrow” around the “SET” button. Click “SET” to either close the window or to comeback to it.
